

Side-seated driving position to enhance driver performance

Ideal for loading and unloading trailers and for load transportation over longer distances

Electric steering for optimized control

Rapid acceleration for high productivity

ESE 220 / 320

Sit-on low-lift pallet truck (4,400 lbs.)

ESE 220 / 320 electric sit-on low-lift pallet truck are ideal for horizontal transport over medium to long distances. With their side-seated operator position, they offer excellent visibility and a comfortable working environment. This is a great advantage, especially where frequent changes of direction are required.

The ESE 220, with a 32.3-inch truck width, and the ESE 320, with a 36.7-inch truck width, are pure side-seated trucks.

Both models are equipped with an adjustable footwell height to ensure a relaxed working position for operators of all sizes.

All pallet trucks are fitted with powerful 24-volt drive motors for quick acceleration and high top speeds. In addition, they offer the advantages of a sturdy design – the chassis and load-bearing sections are designed for capacities up to 4,400 lbs.

Key advantages:

- High driving speeds and acceleration.
- Particularly sturdy chassis for high operational demands.
- Display with steering position indicator.
- Electric steering for easy maneuvering.
- Excellent energy management for low operating costs.

The Jungheinrich Advantage

Comfortable seated position with height-adjustable footwell

Innovative 3-phase AC technology

Jungheinrich® technology allows for higher performance and reduced operating costs as well as these key advantages:

- High-efficiency levels with excellent energy management.
- Powerful acceleration.
- Quick travel direction changes.
- No carbon brushes – maintenance-free drive motor.

Travel comfortably

Speed management by speedCONTROL, which helps ensure maximum control of speed in all situations.

- Roll-back protection on ramps.
- Constant travel speed on ramps / descents.
- Energy recovery by regenerative braking.
- Smooth stepless drive characteristics.

Productivity-enhancing ergonomics

The side-seated position helps provide

the operator with enhanced visibility. An All drive and lift functions are controlled by the multifunction joystick.

operator presence switch in the footwell helps ensure maximum truck control.

- Comfortable seat with adjustment for body weight.
- Upholstered armrest.
- Padded knee area.

Easy operation and excellent all-around visibility

The central position of the driver within the truck's contours means the driver has optimum all-around visibility. The easy-to-operate electric steering and the easily accessible controls provide additional comfort.

- Drive and lift control by multifunction joystick.

Rugged and easy to service

- Easy access to the controller and electronics.
- Sturdy enclosed chassis.

Lithium-ion Package Advantages

- Fast charging with no need for battery exchanges
- Maintenance-free with no odors from gases or acidification
- Longer service life and lower maintenance compared with lead-acid batteries
- Charging can be interrupted at anytime
- 5-year battery warranty included

Optional equipment

- Load wheel options.
- Cold storage modifications.
- PIN code access.
- Load backrest.
- Clipboard.
- Shrink wrap holder.

Parts when you need them

Jungheinrich's Parts Fast or Parts Free Guarantee ensures next-business-day delivery by 5:00 PM of all Jungheinrich parts in the United States, or they're free, including freight. For customers in Canada and Mexico, the guarantee ensures shipping of parts within 24 hours from the time the order was placed by the dealer. See your local Jungheinrich dealer for program details.

* Programs may be subject to change without notice and may vary by region. Please ask your local Jungheinrich dealer for complete terms and conditions.
