

Hand pallet truck

AM22

Standard and specialty hand pallet truck models

The versatile hand pallet truck

ideal for shorter distances.

The world's best selling truck in its class.

Jungheinrich® hand pallet trucks are made tough, while maintaining operator comfort throughout the shift. The AM 22 hand pallet truck is the ideal “warehouse assistant” for all manual transporting over short distances. This is where its advantages come into play:

Effortless and Simple

Easy to operate controls—equally comfortable for left and right-handed operators. Maneuvering with one hand on the handle is both comfortable and safe.

Easy to Handle

Special lowering valve enables loads to be lowered precisely or in small increments.

Shorter and More Maneuverable

Short chassis length offers maximum maneuverability in restricted conditions.

Quiet and Robust

Chromed wheel and joint bushings ensure quiet running and an exceptional long service life. It's no longer necessary to lubricate connections; the AM 22 continually runs smooth.

AM Standard Pallet Truck			
Fork Width x Length	Steer Wheels	Load Wheels	Capacity
