

MOVE

Big Joe can help you **MOVE** materials smarter in your operation.

Replace manual equipment that requires physical labor to transport goods from point to point. By putting simple machines in the palm of your workers hands you can increase productivity while reducing costs from injuries and employee turn over.

T15/T40

1,500 lb to 4,000 lb capacity
Walkie tuggers
Integrates with common carts

P33

3,300 lb capacity
Semi-Electric pallet jack
Permanent magnet drive motor
Manual lift and lower

E30

3,000 lb capacity
Electric pallet jack
Permanent magnet drive motor

D40

4,000 lb capacity
Electric delivery pallet truck
Double tap creep speed operation

WPT45

4,500 lb capacity
Electric heavy duty pallet truck
Industrial battery box

LPT 26/33

2,600-3,300 lb capacity
Lithium pallet jacks
24V Easy Exchange battery
Permanent magnet drive motor

LPT 40/44

4,000-4,400 lb capacity
Lithium pallet jacks
48V Easy Exchange battery
Permanent magnet drive motor

WPT60/WRT60

6,000 lb capacity
Walkie rider pallet truck
Fork lengths up to 96"

STACK

Big Joe can help you **STACK** materials smarter in your operation.

Many of these products can be used for basic warehousing in tight areas or as mobile work positioners to improve workplace ergonomics. Walkie stackers are a great way to supplement a fleet given their low operating cost, and can improve safety in congested work areas. Ride-on equipment like our LXE Spark Lithium forklift are great choices for general purpose work where long travel distances are contemplated either indoors or out and fast charging and clean power is desired.

IBH

1,000 lb to 2,500 lb capacity
Semi electric straddle stacker
Heavy duty straddle
& fork over models

S22

2,200 lb capacity
Compact walkie straddle stacker
Permanent magnet drive motor, offset tiller
Optional fork over configuration

S30

3,000 lb capacity
Compact walkie straddle stacker
AC drive motor, offset tiller

PDS25

2,500 lb capacity
Walkie straddle stacker
Industrial battery box,
Low mount tiller

PDSR30

3,000 lb capacity
Walkie reach stacker
Pantograph mechanism,
Power steering

PDS30/PDS40

PDS30 / PDS40
3,000 lb to 4,000 lb capacity
Walkie straddle stackers
Industrial battery box,
Top mounted tiller

CB22

2,200 lb capacity
Walkie counterbalanced stacker
Industrial battery box, low mount tiller

CB33

3,300 lb capacity
Walkie counterbalanced stacker
Industrial battery box,
Power steering

LXE37 Spark

3,700 lb capacity
Lithium forklift truck
Solid pneumatic tires, 48v AC drive motor
Weather resistant design for indoor / outdoor use

V15/V18/V20

2,800 lb to 4,000 lb capacity
Electric three wheel forklifts
Solid pneumatic tires, 48v,
AC drive motors

ACCESS

Big Joe can help you **ACCESS** materials smarter in your operation.

The compact and capable Joey series of vehicles offers great alternatives to rolling ladders or larger equipment where elevation of personnel is required to complete a task such as order picking or overhead maintenance.

JO Joey

Electric access vehicle
750 lb total vehicle capacity
Lift heights up to 118"
Powered load tray

J1-126/J1-162/J1-192 Joey

Task support vehicles
1,000 lb max. total vehicle capacity
Lift heights up to 192"
Optional towing of up to 2,500 lbs

J1HD Super Joey

Task Support Vehicle
1,200 lb max total vehicle capacity
Lift heights up to 210"
48v high performance operation
Optional towing of up to 3,600 lbs
Optional lithium ion battery

J2-72 / J2-126 / J2-144 Joey

Low & Mid level order pickers
2,000 lb max. total vehicle capacity
Lift heights up to 144" platform elevation
Designed for efficient forks forward operation
J2-72 features ergonomic mini-mast

BIG JOE MISSION

We believe that we can help North American businesses improve their results and the quality of their workers' lives by providing simple innovative material handling products and genuine responsive support.

Big Joe equipment focuses on supporting customers changing needs related to how they **Move, Stack & Access** materials in their operations with the goal of helping companies and their workers **Move More & Hurt Less.**

CUSTOM APPLICATIONS

All Big Joe pallet trucks, tuggers, stackers, and Joey series vehicles can be tailored to meet the needs of special applications.

By matching our equipment attributes to the repetitive tasks they perform we can deliver exceptional value with simple machines. Should you have a material handling challenge based on how you move, stack or access materials let us know.

Our PDX20, PDX30, and PDX40 trucks can often meet special requirements related to:

- Drum & Die handling
- Roll & Coil handling
- Ram & Boom attachments
- Hydraulic clamps & Load positioners
- Conveyor transfer via ball or roller platforms
- High density load handling via solid platforms
- Precision furnace loading and unloading

We can develop a solution for a wide range of requirements utilizing our whole line-up of Big Joe brand products.

- Route delivery applications
- Beverage order picking and distribution
- Rack to shelf solutions for retail distribution
- Specialty full pallet, half pallet and quarter pallet handling
- Integration with cart and cart systems
- Omni-channel, e-commerce, and click & collect operations
- Flexible low level high density order picking solutions
